

Urgent Meeting on Jessore-Benapole Fiber issue

Date: 22.01.2018

Time: 11:00 AM to 12:00 PM

Participants:

Shabbir Anower-O&M-3

Shahidullah Kaisar-Gateway Operations

S.M Mohebubur Rahman-PAD

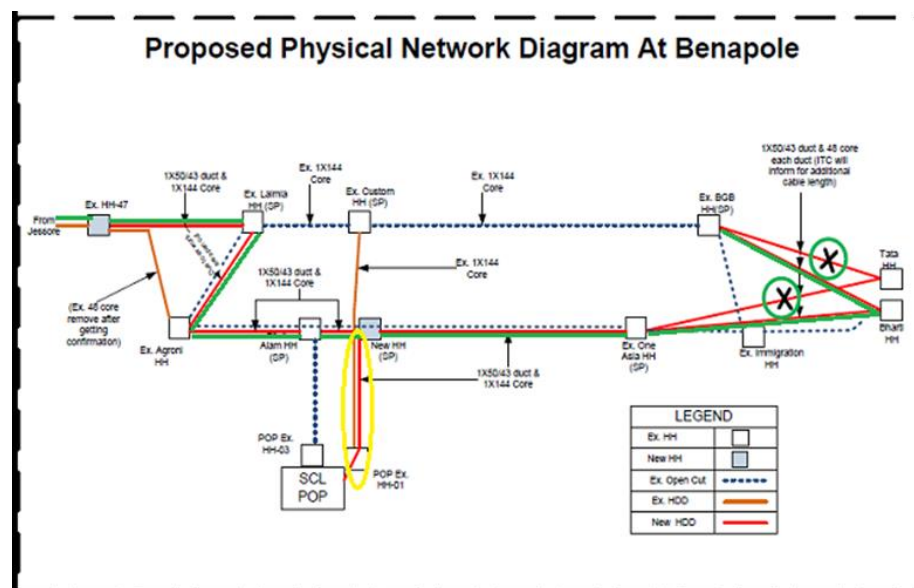

Shamsuzzaman-Implementation

Mostafiz Rahman, Md. Rubayet UI Islam-CRA

Sufi Zulfikar Ali-SCM

Discussions:

1. HDD and cable blowing completed green color path
2. Way-forward for establishing new OFC connectivity from new HH to Benapole POP EX HH-01 (yellow marked); approximately 120 m is suspected risky, due to six existing HDD backbones (F@H, Mango, BD link, NovoCom with SCL IIG 2 Nos BB) connectivity and Utility line (Wasa pipeline) within newly RCC done at 7' width (approx. 2m) width RCC Road
3. Wash boring from new HH to S.Alam HH is more **than 4 feet**
4. There is high probability of risk for open cut, due to 2-3 feet OFC laying towards POP
5. Options:
 - a. Open-cut activity to avoid probable risks. Necessary permission required and vendor arrangement for open-cut
 - b. Using any of 2 existing free duct (one from Custom HH to Benapole POP HH ex-03 (which is approximately **12 feet depth** in S.Alam interaction); and the other from S.Alam HH to POP ex HH-01). In that case Active-protection Network need to re-design for 1st case and S.Alam HH will be SPoF for second scenario.

Decisions:

1. Need management vetting on route (active and protection), consider
 - a. SPoF at S.Alam HH and Custom HH intersection; and
 - b. Cable damage risk for 2-3 feet depth of OFC, if open cut
2. Proposed route, if option a is considered:
 - a. One-Asia, S.Alam and then POP
 - b. BGB-Custom-POP

Sl	Action-points	Responsible	Deadline	Remarks
1	Updated and correct information ODF port (Gateway Operations-end) at Benapole POP sharing with O&M, PAD	Shahidullah Kaiser	25.01.2018	
2	Immigration-BGB-S.Alam HH (old) OTDR for free core And up-stream patching information	F.M. Mahfuzur Rahman Shahidullah Kaiser	24.01.2018	
3	Core plan newly laid OFC	S.M. Mohebubur Rahman	24.01.2018	O&M and GW will provide necessary support
4	Decision from MD, SCL on execution option regarding risk and SpoF/ intersection	Shabbir Anower	22.01.2018	With PAD & Imp, HoD
5	CRA will move for open-cut permission, if open-cut decided	Md. Rubayet Ul Islam	Depends on sl#4	
6	SCM will provide open cut vendor, aligning with IMP	Sufi Zulfikar Ali Md. Shamsuzzaman	Depends on sl#4	Approximately 7-14 days will required from PO issuance.
7	GW Operations will confirm with sufficient lead-time ahead about TATA connectivity	Shahidullah Kaiser/ Md. Khalid Rayhan	Open
